DHVANIL BAROT

PROJECT ENGINEER

+1 602 637 3985 dhvanilbarot@gmail.com Tempe,AZ

ABOUT ME

Results-driven Construction Project Engineer with 3+ years of experience in MEP systems, piping infrastructure, OSHA-compliant safety programs, RFI management, CPM scheduling, and QA/QC across multi-million-dollar projects. Hands-on delivery of complex infrastructure including water treatment, high-elevation sewer, steam, and hydraulic piping systems, with direct exposure to TSMC Arizona and NXP semiconductor facilities. Currently pursuing M.S. in Construction Management at ASU, serving as BCxA Chapter President, with proven leadership in subcontractor coordination, field operations, and client communication.

EDUCATION

2024 - 2026 **ARIZONA STATE UNIVERSITY | M.S. CONSTRUCTION MANAGEMENT AND TECHNOLOGY**

2017 - 2021 **GUJRAT TECHNOLOGICAL UNIVERSITY | B.E. CIVIL ENGINEERING**

WORK EXPERIENCE

JAN 2025 - PRESENT **PPS LLC. | PROJECT INTERN**
Manage MEP and infrastructure projects across multiple active sites. Implement OSHA-compliant safety programs, lead toolbox talks, and support incident investigations. Maintain Procore documentation (RFIs, submittals, safety logs) and develop CPM schedules. Key projects: Lake Pleasant WTP, Glen Canyon Bridge sewer line (~1,300 ft), Fort Whipple steam pipeline, CMC SS hydraulic piping, EPCOR roof replacement.

MAY 2025 - AUG 2025 **PPS LLC. | PROJECT INTERN**
Coordinated HVAC pipeline installation with Arrowmark overseeing crew of 30. Managed RFIs and procurement in Procore/Bluebeam. Supported chilled water line extension at ASU Polytechnic as PPS subcontractor to Chasse Building Team.

JAN 2024 – MAY 2024 **NEWMARK ENTERPRISE | SITE ENGINEER**
Managed high-speed rail project field operations with 50+ team. Conducted safety audits and improved documentation systems.

JUL 2021 - DEC 2023 **UTTAM ENGINEERING CO. | CIVIL ENGINEER**
Directed RMC plant for ADANI-ACC ,delivered 3 months early, 20–25% cost reduction.

VOLUNTEER / LEADERSHIP

BCXA ASU CHAPTER | 2025–2026
President & Vice President — organized industry events, safety seminars, professional networking.
IOT SAFETY RESEARCH PROJECT
Led government-funded research on wearable site safety devices for real-time jobsite monitoring.

SKILLS

- RFI Management
- CPM Scheduling
- Cost Estimation & Bid Walks
- QA/QC & WPS Review
- OSHA 30 Safety Programs
- Site Supervision
- Procore & Bluebeam
- AutoCAD & Revit

CERTIFICATIONS

- OSHA 30-Hour Construction Safety
- Autodesk Revit Architecture
