DHVANIL BAROT

PROJECT ENGINEER

Results-driven Construction Project Engineer with 3+ years of experience in MEP systems, piping infrastructure, OSHAcompliant safety programs, RFI management, CPM scheduling, and QA/QC across multi-million-dollar projects. Hands-on delivery of complex infrastructure including water treatment, high-elevation sewer, steam, and hydraulic piping systems, with direct exposure to TSMC Arizona and NXP semiconductor facilities. Currently pursuing M.S. in Construction Management at ASU, serving as BCxA Chapter President, with proven leadership in subcontractor coordination, field operations, and client communication

Experience

JAN 2026 - PRESENT

PPS LLC.

PROJECT ENGINEER

Manage MEP and infrastructure projects across multiple active sites. Implement OSHAcompliant safety programs, lead toolbox talks, and support incident investigations. Maintain Procore documentation (RFIs, submittals, safety logs) and develop CPM schedules. Key projects: Lake Pleasant WTP, Glen Canyon Bridge sewer line (~ 1,300 ft), Fort Whipple steam pipeline, CMC SS hydraulic piping, EPCOR roof replacement.

MAY 2025 - AUG 2025

PPS LLC.

PROJECT INTERN

Coordinated HVAC pipeline installation with Arrowmark overseeing crew of 30. Managed RFIs and procurement in Procore/Bluebeam. Supported chilled water line extension at ASU Polytechnic as PPS subcontractor to Chasse Building Team.

JAN 2024 - MAY 2024

NEWMARK ENTERPRISE

SITE ENGINEER

Managed high-speed rail project field operations with 50+ team. Conducted safety audits and improved documentation systems.

JUL 2021 - DEC 2023

UTTAM ENGINEERING CO.

CIVIL ENGINEER

Directed RMC plant for ADANI-ACC ,delivered 3 months early, 20-25% cost reduction.

VOLUNTEER / LEADERSHIP

BCXA ASU CHAPTER | 2025-2026

President & Vice President - organized industry events, safety seminars, professional networking.

IOT SAFETY RESEARCH PROJECT

Led government-funded research on wearable site safety devices for real-time jobsite monitoring.
